

# SUMMER 2023 BRAIN BOOSTING SUMMER CAMPS

FUN, EDUCATIONAL summer camps for Grades 1-6

Customized learning programs to fill in gaps, enrich, & keep students' brains active.

## Week 1: S.T.E.A.M. | July 3 - 7

This camp is loaded with FUN! Putting it all together with Science, Technology, Engineering, Art and Math! Each day, we will begin a new theme and explore how S.T.E.A.M. is a part of everything we do. Whether it is studying motion through a yoga pose, or using fractions for baking, students will have a mindful S.T.E.A.M. experience!

## Week 2: Minecraft Coders | July 10 - 14

Grab your pickaxe and dive into the world of Minecraft! Our campers will go code crazy as they learn the language of computers. Campers will create their own algorithms, and even have the opportunity to design their own video game! Whether you're an expert in coding or taking your first look into the world of binary, Minecraft Coders is the camp for you!

## Week 3: Lego® Builders | July 17 - 21

Lego has become a global phenomenon! Since 1958 there have been well over 400 billion Lego bricks produced for the builders of the world. Now is your time to become a master model builder. You can create anything with Lego bricks. This week, you will discover insider tips and tricks on building with Lego.

## Week 4: Artistic Adventures | July 24 - 28

Get your creative juices flowing and set off on an Artistic Adventure! Our artists will use their right brains to explore their imaginations and create wonderful works of art! Whether we are painting, sculpting, drawing, or sketching, Artistic Adventures is sure to be a masterpiece!

## Week 5: Fun Food Science | July 31 - August 4

Play with your food! Fun Food Science allows campers to experience their food in an exciting and new way! Campers will learn the science behind food and use it to create their own delicious recipes! They will have their skills put to the test as they use their knowledge of food and science to become the ultimate master chef!

## Week 6: LEGO® Robotics | August 8 - 11 (Short Week)

Take your Lego designs to the next level with Lego Robotics Camp! Campers will see their creations come to life as they get the opportunity to program their own robots! Put your programming skills to the test as you maneuver your robot through an obstacle course, or prepare it for the ultimate robot battle!

## Week 7: Veterinary School | August 14 - 18

Do you love and care for animals? Have you always dreamed of becoming a veterinarian? Come and see what being a vet is all about! In Vet School, our students become interns in our Veterinarian-in-Training program, where they will learn about caring for all types of animals.

## Week 8: Artistic Adventures | August 21 - 25

Get your creative juices flowing and set off on an Artistic Adventure! Our artists will use their right brains to explore their imaginations and create wonderful works of art! Whether we are painting, sculpting, drawing, or sketching, Artistic Adventures is sure to be a masterpiece!

## Week 9: S.T.E.A.M. | August 28 - September 1

This camp brings it all together with Science, Technology, Engineering, Art and Math! Each day we will explore a new theme and explore how S.T.E.A.M. is a part of everything we do. Whether it's studying motion through a yoga pose, or using fractions for baking, students will have a mindful S.T.E.A.M. experience!
