

Oxford Learning Saskatoon Centre Newsletter

December 2025

Centre News

We had a fantastic time at the Santa Claus Parade and look forward to doing this again in the future. A big thanks to family and staff for making it a fun day, helping with decorating, driving the truck, and getting in the spirit of things!

Is your family going away over the school break? PLEASE let us know asap!

*If enough students are away for the entirety of the school holidays, we will consider closing for the same days as the schools.

Business Considerations

Running a business is no small expense these days. Every month, it costs us approximately \$500 for credit card fees! Although we regret having to do this, effective December 1, 2025, we will be adding a 2.55% fee to all invoices paid by credit card.

****Please make all payments fee-free as e-transfers to cmysko@oxfordlearning.com.****

Also, we have given the online payment method a fair trial for the past five months, and we have decided against continuing to subscribe to this service. This means that you will no longer be able to pay directly from the invoice.

While we appreciated the convenience to you, it has unfortunately proven unreliable and cost-prohibitive. C'est la vie! We live, learn, and adjust.

Birthday Bunch!

**Nicole-December 8, Isla-December 10,
Gabriel-December 28, Henry- January 28**

Dates to remember

- Tuition is due on the 1st of the month.
- We are CLOSED December 24-27.
- We are CLOSED December 31-January 1.

When Do We Reassess?

All students starting at Oxford Learning receive a Dynamic Assessment before they start classes. The results show essential literacy levels, auditory and visual discrimination, and cognition.

Why? We do this because we want every student to receive the best possible instruction that we can give. The results yield a plan for how best to teach to the individual's needs.

Did you know that it takes almost a year of training and practice to receive certification as an assessor? It takes time to learn how to evaluate strengths and weaknesses.

Did you know that even though we charge for assessments, they actually save you money? We get to the root of learning issues without wasting time, and in a way that meets the student's needs.

Is reassessment needed? Yes and no. We only do a Dynamic Assessment one time. We need to do a complete academic assessment every so often to measure their improvement properly. We do this on a scheduled class time as part of our regular course of business (after 6 or 12 months of enrolment).

Happy Holidays!

From all of us at Oxford Learning Saskatoon, stay safe and warm and enjoy the season!
