

Oxford Learning Saskatoon Centre Newsletter

March/April 2026

Centre News!

Spring is sprung! The lovely warm weather this week is hopefully the start of the kind of temperatures we can expect going forward. As spring arrives, please remember that our programs do not expire! Your schedule will continue through school breaks and even summer holidays.

We rarely ever recommend pausing a program for holidays, but if you must, please provide us with 30 days notice from the end of a month if you are discontinuing classes. We hope you stay, because summer is a great time to continue learning, and students lose so much knowledge during that time!

Beware Technical Issues

In the ongoing need to stay up to date with our technology, there can be glitches. Our head office is currently aware that some people have been receiving multiple text messages or emails. Please rest assured that we are working on the problem and apologize for any inconvenience.

Holidays are coming!

Happy Easter for those who celebrate this holiday. **Friday, April 3 is a statutory holiday and we are closed.** We will reopen on Saturday, and **we are open the following week, including Monday, April 6.** Remember that a stat holiday generates a makeup class for those regularly scheduled on that day. We will make every effort to find an agreeable substitution.

If your child will not be attending classes during this time, please let our office know by April 1st.

Going away?

You've asked, "How does it work if we go away on holidays?" Our answer is that it depends on the duration of the holiday.

- Two classes = rescheduled classes
- Four classes = rescheduled classes
- More than four = pause in program

Your child's success relies on regular attendance, and our business remains viable through regular invoicing.

Need a Meeting Spot?

Do you have a knitting circle, coffee bunch, or other group that needs a place to meet? We are happy to offer a spot when we can. Just ask!

And if it's anything artsy or crafty, there's a good chance Carla might sneak in and join you :).

Stars & Referrals Please!

Your stars and good words are what keep a small business running, and they are needed more than ever! **Please leave us a Google review** - it helps keep our business growing. Also, successful referrals of a customer can give you a credit on your next month's invoice!

Oxford Learning Saskatoon Centre Newsletter

March/April 2026

Reading Corner

Have you visited Westgate Books yet? They are located right beside us and sell used books for almost half of the retail price. They also accept books that they can sell for either store credit or by donation. Shop local and read well. Win-win!

If you need any suggestions on books that are appropriate for your child's reading level, just ask us at Oxford Learning.

Coming Soon?

Is there a demand to schedule **Saturday Afternoon Study Halls** for grades 8-12 in May or June? These make good days to work on projects and assignments, or study for finals...with help! Open to all, not just Oxford students – in the past, we've charged \$25 to reserve a spot. **Please email us with your interest!**

Our Business Community

Do you sometimes need a hand transporting your child to our centre? A hearty shoutout to a business owned by one of our Oxford Learning Saskatoon families. **Prairie Path Transit Services** offers transportation for a variety of purposes, and they serve individuals with different abilities and needs. Check their [website](#) for more information, and mention we referred you!

Do you have a business you would like us to include in our next newsletter? Send us an email.
